Complaint on First-Class Mail
Service Standards

Docket No. C2001-3

NOTICE OF THE UNITED STATES POSTAL SERVICE REGARDING FILING OF
SUPPLEMENTAL MATERIAL IN LIBRARY REFERENCE C2001-3/9
(July 15, 2002)

The United States Postal Service hereby gives notice that it is filing material today to supplement and supersede the original contents of the following Library Reference, filed on July 3, 2002:

C2001-3/9 EXFC and ODIS First-Class Mail Originating and Destinating
Scores Before And After Service Standard Changes

The Library Reference contains three sections, each of which is discussed below.

It was intended that the first section of the Library Reference contain:

available quarterly originating and destinating EXFC service performance scores by performance cluster for the two fiscal years (FY 1998-1999) preceding the service standard changes at issue in this proceeding, as well as the fiscal year quarters following the implementation of the service standard changes (beginning with FY 2001 Q 4).

All such materials were filed in the Library Reference on July 3rd, and designated as pages E1- E52.¹ The supplement to the Library Reference described below does not affect the substance of the material originally filed in this section.

It also was intended that the Library Reference contain:

- (b) available ODIS quarterly originating and destinating time-in-transit scores by customer service district (near equivalent of performance cluster) for the same time periods.

¹ As indicated in the July 3rd notice accompanying the filing of the Library Reference, no originating EXFC data exist for periods before FY 1998, Quarter 3. Accordingly, for FY 1998, Quarters 1 and 2, only destinating data were reported.

Only a partial collection of ODIS originating district reports were filed in the Library Reference on July 3, 2002, as pages O-1 - O-32. The Library Reference is being supplemented today by inclusion of all remaining originating and destinating reports described above. Accordingly, this section of the Library Reference has now been expanded from 32 to 88 pages. As supplemented today, this section of the Library Reference now contains for each quarter both the originating and destinating 2-day and 3-day district time-in-transit ODIS reports. For ease of reference, this section of the Library Reference is being reconfigured, so that originating and destinating reports for each fiscal quarter are consecutive. This requires a repagination of the original contents of the section.

As originally filed, the Library Reference also contained, as the final section, a guide listing the 3-digit ZIP Code areas associated with each ODIS customer service district identified in the preceding section. No substantive change is being made to this final section of the Library Reference.

As indicated above, the only section of the Library Reference being supplemented is the middle section entitled:

"Available Origin-Destination Information System (ODIS) Originating and Destinating Time-In-Transit Scores By Customer Service District Before And After Service Standard Changes".

Nevertheless, the entire content of the Library Reference is being re-filed, so that the pagination in the first and last sections can be improved in conjunction with the middle section being completed. **Thus, the materials being filed today supersede the entire contents of the original Library Reference.**

Respectfully submitted,

UNITED STATES POSTAL SERVICE

By its attorneys:
